First motion pictures : By the end of the 1880s, the introduction of lengths of celluloid photographic film and the invention of motion picture cameras, which could photograph an indefinitely long rapid sequence of images using only one lens, allowed several minutes of action to be captured and stored on a single compact reel of film. Some early films were made to be viewed by one person at a time through a peep show device such as the Kinetoscope and the mutoscope. Others were intended for a projector, mechanically similar to the camera and sometimes actually the same machine, which was used to shine an intense light through the processed and printed film and into a projection lens so that these moving pictures could be shown tremendously enlarged on a screen for viewing by an entire audience. The first kinetoscope film shown in public exhibition was Blacksmith Scene, produced by Edison Manufacturing Company in 1893. The following year the company would begin Edison Studios, which became an early leader in the film industry with notable early shorts including The Kiss, and would go on to produce close to 1,200 films.

On June 15, it was announced that the Academy Awards would be pushed back by two months from February 28 to April 25, so that the cutoff for eligibility could likewise be extended from December 31, 2020, to February 28. The Academy Governors Awards and Scientific and Technical Awards have been postponed indefinitely. The British Academy of Film and Television Arts BAFTA subsequently announced that it would follow suit and postpone the 74th British Academy Film Awards to April.⁴⁰ On June 22, the Golden Globe Awards were also delayed from early-January to February 28, 2021 filling the Academy Awards former date.⁴¹ The Screen Actors Guild Awards were also postponed from January 24 to March 14.⁴²

Several Chinese and Hong Kong films have stopped production, including Blossoms, the upcoming film directed by Wong Kar-wai, which was scheduled to shoot in Shanghai¹⁶² Jia Zhangke's next film, which was planning to begin filming in China in April, but has been put

on hold until at least next spring, with Zhangke saying he might even rewrite the script¹⁶² and Polar Rescue, a Donnie Yen film, which shut down production until the end of the year.⁸² One of the first big production shutdowns was that of Mission: Impossible 7, which was scheduled to begin filming in Venice, Italy when the crew was sent home and the sets left behind.⁶ After actor Tom Hanks became infected with the coronavirus, the Elvis Presley biopic he was working on in Queensland, Australia was shut down, with everyone on the production put into quarantine. Production company Warner Bros. began working with the Australian public health services to identify other people who may have been in contact with Hanks and his wife Rita Wilson, who had been performing at venues including the Sydney Opera House shortly before both were tested positive.¹⁶³ The Marvel Studios film Shang-Chi and the Legend of the Ten Rings, which was also shooting in Australia, had its first unit production temporarily suspended on March 12, 2020, due to director Destin Daniel Cretton self-isolating while awaiting results for a coronavirus test, which came back negative.¹⁶⁴¹⁶⁵
